Sharing Jesus in Central Asia

Recently, we travelled on outreach to a city of 300,000 with some resident “B.e.y.o.n.d” workers. There are no known believers in this city! A couple of university students there reached out over the internet and requested to meet with a Christian. After an evening of reading the Bible and discussing Jesus with them, they asked our workers (who live 4 hours away) to return and meet with them and other friends to continue this discussion. What a door of opportunity! This is how a multiplying church planting movement begins. Pray with us for multiplication of this seed, reproducing disciples and the establishment of churches. The Holy Spirit is drawing

people to Himself!

We also had the joy of serving our “B.e.y.o.n.d” team in Central Asia / Middle East. This team is so easy to love and lead. There are 24 of them – 15 adults & 9 children - serving in 5 different cities. They are passionate followers of Christ, full of the Holy Spirit and committed to making Jesus known where there are no or few believers. We were involved in teaching, training, vision casting, strategizing, ministering to, and caring for each family as they face the challenges of working in this Muxlim environment. The goal for this team is to make disciple making disciples and to see the church planted. New Global Harvest workers in Romania – Cris and Alinda Rusu & their children – joined us in the Middle East for the B.e.y.o.n.d gathering along with Global Harvest leadership Bruce & Lauren Lungren.

Tanzania – Coming in December

- Teaching, preaching, strategic planning, youth and kid’s ministry. Participating in 2 church projects.
- Lord willing, and by faith, beginning the groundwork for a team of long term ACOP global workers to begin working on the Muxlim coast and particularly on the islands of East Africa.

God bless you for your faithful prayer and support!
